Enomatic Wine Flights

Renowned for its innovation and Italian design, The Enomatic Wine Preservation & Serving System has revolutionized the enjoyment of wine. Enomatic systems dispense wine directly, in a multi-portion fashion directly from the bottle using inert gas preservation. The flavors and characteristics of the wine remain intact and you can be assured that the wines dispensed are fresh and flavorful, as if the bottle was just opened.

Become your own wine critic, taste and evaluate any wine based on your individual preferences and personal tastes. Build your own wine flight or wine tasting, instantly.
