Kids Under 3

Welcome Aboard the Oasis of the Seas

This week will be filled with boatloads of activities, wonderful adventures and unforgettable experiences for both you and your little ones. This weekly planner will allow you to find out about all the amazing things happening in the Royal Babies and Tots Nursery—the first of its kind onboard any Royal Caribbean International Ship, including how to register for the program, how to book hours in the Nursery, hours of operation, and our policies. The Royal Babies and Tots Nursery staff are excited to meet you and your children, so come and see us up on Deck 14, forward, Kids Avenue, and get ready to play!

How to register and book your child a place in the Nursery

Once on the ship, we welcome all families who are interested in enjoying the Nursery to come and visit us in Kids Avenue, Deck 14 forward. Here you can begin your Nursery preparation and planning by registering your child. Once your child has registered, you may begin to book requested hours in the Nursery. On day one, we will offer each family a set number of booking hours for their whole cruise vacation, then later in the voyage we will open up all left over hours and they will be given away on a first come first served basis. Once a Nursery session has begun any remaining time slots will be given away at the door. However, we do highly recommend booking in advance to guarantee your child a place (please refer to our cancellation and late pick up policy for further booking information).

Please note: an hourly fee of \$8 per child will apply for this service.

“Learning through play....”

Jean Piaget, renowned psychologist.

Everyday in the Royal Babies and Tots Nursery, there will be a new and exciting theme which all the fun, activities and toys will be centered around! The themes have been developed to work around your child's individual care routine, and encourage the children to learn new skills and explore their imagination. Every evening between 7:30 pm and 9:00 pm, the Nursery will have “Twilight Time” with soothing activities, toys and Royal Bedtime Stories. This will help to create a more calming and quiet environment as your child gets sleepy, and it nears their bed time.
